I'm a full-stack web developer who enjoys building and maintaining websites and web apps. I've worked on both the front-end and back-end of a website, utilizing a variety of technologies and languages. I can use HTML, CSS, and JavaScript to design and create a website's user interface and user experience. I can also use Node.js, Express.js to create and maintain the logic and operation of a website. I am well acquainted with several databases, such as MySQL, MongoDB, and others. In addition to my technical knowledge, I have experience as a student coordinator, organizing and supervising programs for Liberian students at Rauf Denktas university. As a department assistant at Rauf university, I have added to the body of knowledge in the field of software engineering.

SKILLS

- HTML
- CSS
- JAVASCRIPT
- REACT

- NODE.JS
- PYTHON
- C++
- C#

- MONGODB
- MYSQL

EDUCATION

Graduating 06/2024

Bachelor of Science Software Engineering, Rauf Denktas University-TRNC

- Full-stack web developer with experience in front-end and back-end development
- Proficient in HTML, CSS, JavaScript, Node.js, Express.js, and various databases
- Skilled in creating user-friendly and responsive websites and web apps

Graduated 10/2019

Diplomat in Accounting, Booker Washington Institute-Liberia

- Demonstrated spirit of entrepreneurship and desire to comprehend the financial side of managing a successful business
- Diploma holder in accounting, with a keen interest in business and financial knowledge

EXPERICENCE

02/2023 – Present

Software Engineering Manager, Techllective – TRNC

- Analyzing, proposing, and managing budgets, technologies, and resources for projects
- Planning strategies for the development of designs and products on schedule and on budget
- Communicating and collaborating with other, stakeholders and contractors

07/2023 – 08/2023	**Internship,** OpenSoft Software Solutions – TRNC

- Worked as an intern at Opensoft, a software company that provides solutions for various domains such as education, health, and finance.
- Developed a library management API implementation in C#, using ASP.NET Core, Entity Framework Core, and SQL Server.
- Implemented features such as book catalog, user authentication, borrowing and returning books, and generating reports.

03/2022 – 03/2023	**Teacher Assistant,** Rauf Dentktas University – TRNC

- Assist the faculty members in teaching various software engineering courses, such as web design, C#, C++, Calculus, and software project management.
- Provide academic support and guidance to the students enrolled in the software engineering program, such as tutoring, mentoring, and advising.
